Summary

Software Developer and Assistant Systems Engineer specializing in Python, AI-driven automation, data analytics, and Android application development. Experienced in building multi-agent AI systems, mobile applications, REST API integrations, and Firebase-backed solutions. Strong in problem solving, system design, software development, and technical leadership.

Experience

Freelance Android App Developer — GEM Group

May 2026 – Current

Mobile Application Development

- Develop Android mobile applications using Flutter and Dart with Firebase and REST API integrations.
- Work with Android Studio and Firebase Console across application development and backend service integration.

Skills

Languages: Python, Dart, SQL, Java, C/C++

AI & Data: CrewAI, Pandas, Plotly, Streamlit

Mobile: Flutter, Android, Firebase, REST APIs, Android Studio, Firebase Console

Web: HTML, CSS, JavaScript, Django

Tools: Git, GitHub

Projects

InsightGen — Agentic AI Data Analytics Platform

Python, CrewAI, Streamlit, Pandas, Plotly

- Built a **multi-agent AI system** to convert natural language queries into automated data analysis reports.
- Designed agent workflows for data cleaning, processing, and visualization using CrewAI.
- Developed an interactive dashboard for real-time analytics and dynamic visualization.
- Reduced manual data analysis effort by **60%** through end-to-end automation.

PROFEXIA — Skill Barter Platform

Python, Django, SQL

- Developed a web platform enabling peer-to-peer skill exchange without monetary transactions.
- Designed backend logic for handling user matching and exchange workflows.

Child Vaccination Management System

HTML, CSS, JavaScript, SQL

- Built a system to track vaccination schedules and generate automated alerts.
- Implemented date-based logic to improve tracking accuracy and compliance.

Education

Master of Computer Applications (MCA)

2024 – 2026

Adi Shankara Institute of Engineering and Technology

CGPA: 8.3 / 10

Bachelor of Computer Applications (BCA)

2021 – 2024

DePaul Institute of Science and Technology

Leadership & Activities

- **Main Coordinator, Hackastra 2026:** Led an intercollege hackathon with 60+ participants, managing technical execution.
- **Main Coordinator, Pragyan Tech Fest:** Managed sponsorship acquisition, strategic planning, and event execution.
- **MCA Representative, CSI SB ASIET** Apr 2025 – 2026: Coordinated workshops, seminars, and technical events.

Certifications

- Generative AI: Introduction and Applications – IBM
- Developing Front-End Apps with React – IBM
- Cloud Computing – NPTEL
- Full Stack Development with Django – ICT Academy Kerala
